32 **Lot 32: 1985 Harley Davidson King of the Highway Police Model Motorcycle**
This is a good running motorcycle that was originally made for police use. The speedometer / odometer has been replaced because it was not working but the original one comes with the bike. The title is in hand and clean but the miles are not correct and wilol reflect that way on the title. The owner says there is approximately 35,000 actual miles. It has new tires, voltage regulator and battery. I will start and run but is a little cold blooded. See the pictures for video.
